

LOTS IN FRUITVALE One Cent Per Square Foot

Or a trifle over for home sites of more than one acre each, adjoining the celebrated Pu-kele Homesteads in PALOLO VALLEY, ten minutes' walk from the car line.

These lots are adjoining the beautiful homes of Owen Williams, William A. Rideout, Charles J. Schoening, Edward F. Patten, and others.

The rear of these lots extends to the hill slopes, from which grand views are to be had. Correct soil for all kinds of fruit.

Let me show you this property.
\$500 per acre and up.

PRINCE RUPERT IS THE BOAT

The Puget Sound Excursionists
Have Arranged the
Itinerary.

Secretary Wood's report to the pro-
motion committee yesterday follows:

"While there would seem to be nothing doing as far as the expected excursion from Los Angeles is concerned, we are now sure of the Seattle excursion, as the following letter from O. R. Van-
dell, secretary of the Seattle Chamber of Commerce, would indicate:

"Replying to your favor under date of September 2, with reference to the outlook for our winter excursion, I am gratified to be able to report that the present indications are we shall have more applications than the capacity of the ship will accommodate. We have made tentative charter of the steamship Prince Rupert, with a capacity of two hundred and twenty-five first-class passengers, and plan to leave here on or about February 1, on a thirty-day itinerary, which we will divide among the various points of interest on the islands, being governed largely on this by your recommendations.

"Your Mrs. Headlee has rendered us every possible assistance in working up preliminary interest in this excursion, and will be of great value to us when it comes to closing the reservations. In fact, I would have been both to undertake it, but for her assistance and active cooperation.

"I am now in the throes of our annual trade excursion. As soon as that is off my mind we will advise you further as to the details of the Honolulu trip.

"If you have a few high-class half-tones, acceptable for reproduction in a folder, we could use them to advantage if forwarded immediately, together with any other data which would prove attractive to prospective visitors."

The Steamer Is O. K.

Our agent at Seattle, Mrs. Headlee, writes under date of September 17 as follows in regard to excursion from Puget Sound and other matters:

"Ere this time you will have received my letters of later date concerning the excursion. The steamer is in every way—except size—all we could desire. Mr. King, manager of the excursion, is a splendid worker, and from the systematic and businesslike way in which he has taken up the matter I feel assured that everything will be well managed. He has furnished me with three lantern slides of the steamer, which I am using in my lectures.

"Mr. King reports that a committee of Honolulu excursion boosters will be aboard the trade excursion arranged by the C. & O. for touring the State, leaving here on the 26th and visiting the eastern part of the State. They will personally call upon the different commercial organizations visited and 'talk up' the excursion. They will have literature on hand for distribution. Mr. King requests also that any inquiries received at your office that may look favorable for excursion business be sent here.

"The time set for the excursion is to leave Seattle February 2 (afternoon), arrive in Hilo February 11 (morning), spend the 11th, 12th and 13th at Hilo and the crater; arrive in Honolulu the morning of the 14th, and leave Honolulu on the 23d. Whatever entertainment you may plan for the party can be used here to increase the number of passengers, so if you can give same general outline of entertainment in your next along this line I can use it to advantage. Any change you may suggest in this schedule will be gladly received. The chamber will make formal announcement through the press after the tour of the State is over. I think it would have been better to announce it first, but Mr. Vandell thought not. I will not be able to write again until my return from Vancouver and Everett, but trust each trip may be fruitful. Vancouver week is full with lectures scheduled for the 19th, 20th, 21st, 22d and 23d—one having been added since I last wrote you.

"Requests for lectures are now coming in very fast and October is almost entirely filled. On the 28th of this month I am to speak in Trinity Parish here in Seattle—the rector is a Doctor Gowen who formerly lived in Honolulu. On the 29th I am to speak before the Metropolitan Club—one of the largest and most influential social and business clubs of the city. The Arctic Club has decided to give me the evening of its annual reception to returning Alaskans—date not yet arranged. Portland Y. M. C. A. have me scheduled for November 4 and correspondence with Spokane, Walla Walla, Wenatchee and Yakima are favorable for lectures there, so I feel that the work is being prosecuted successfully, although some of the audiences are disappointing in numbers and possible results. This can not be avoided I think in a new field."

National Editorial Association.

On September 1 I wrote to the secretary of the National Editorial Association at Waterloo, Iowa, asking as to the status of the proposed excursion to Hawaii and making certain suggestions.

Mr. Parrott replies as follows, under date of September 15:
"Your very kind favor of September 1 came to hand yesterday. We will be very glad to follow your suggestions and will write Mr. Hill, also Mr. Stitt, and when in Chicago will visit Mr. Lynch.
"My letter of the 23d covers the situation about as it stands today. We all are very desirous of taking the trip and hope arrangements can be made that will enable us to do so. The propositions received up to date do not look as favorable as they might. We have no other program other than Honolulu and will thrash it out to a finish and only give it up when it is proven conclusively that it is beyond our reach."

The cruise of the Cleveland still continues to be heard from. One of the passengers, Walter V. Arbuckle of Paris, Illinois, writes as follows:
"I am writing a book of my tour of the world in 1909 and 1910, and from the impression that I got of Oahu at the time, I wish to, in a way, to give the Hawaiian people a boost."

"Now, what I want is about one-half dozen photo-engravings or half-tone

SICK HEADACHES

AND DEBILITY AFFLICTED THIS
KANSAS WOMAN.

Dr. Williams' Pink Pills Cured Her
After Other Remedies and Treat-
ments Had Been Tried in Vain.

There is no mystery about the fact that Dr. Williams' Pink Pills are both a blood-builder and a nerve tonic, nothing un-
recognized by science in the power of these pills to cure severe nervous dis-
orders as well as diseases of the blood. Dr. Williams' Pink Pills are a specific for anemia, or deficiency of blood. Hence they are a remedy for all nervous diseases which result from, or thrive under, anemic conditions.

"One such trouble is nervous headache and the success of the tonic treatment through the blood is thus described by Mrs. Walter Anderson, whose address is R. F. D., No. 1, Valeria, Kans. She says: 'Ever since I was a child, I suffered with sick headaches and when I was thirteen years of age I had a severe attack of inflammatory rheumatism in my limbs, which were terribly swollen. I suffered intense pain and from that time until I took Dr. Williams' Pink Pills I suffered a general weakness. There was a constant pain through my head and I never saw a good day. I was weak, generally ran down and had no ambition to work. My blood was thin and I lost in weight. I was tired and languid all of the time. I had no appetite and my stomach was out of order. Whenever I was chilled I was troubled with rheumatic pains in my limbs. I was very nervous and was often confined to bed for a week.'

"The doctors did not do me a particle of good and they did not seem to know what ailed me. After I had been under their care for some time, my father decided to have me try Dr. Williams' Pink Pills. I could see that they were helping me take a few boxes for my strength came back and my headaches disappeared. I have been in very good health since."

Dr. Williams' Pink Pills are unequal-
led for the treatment of even the most severe nervous disorders, such as neu-
ralgia, partial paralysis, St. Vitus' dance and locomotor ataxia. As a tonic for the blood and nerves they are used every-
where with the greatest success, build-
up wasted bodies and bringing the glow of health to pale and sallow cheeks.

Our booklet, "Diseases of the Blood," will be sent free upon the request of any sufferer from impure or impoverished blood.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

plates, say, something like 'Broad Fruit,' opposite page 8, in 'Hawaii Its Agriculture Possibilities'; printed for distribution at the Alaska-Yukon Pacific Exposition; one like 'Native Sisal Leaves and Drying the Fiber,' opposite page 12, same pamphlet; one like 'Grape Arbor in Bearing,' opposite page 28, same pamphlet; one like 'Vanilla, Showing Pods and Manner of Growth,' opposite page 30, same pamphlet; and one like 'Commercial Papaya Orchard,' following last above named. Or any similar good photo-engraving of the Pali; the aquarium; of natives; a good street scene; or the like.

"Now, if the promotion committee will express to me, prepaid, as above suggested, I will use the plates in my book and give each thing a nice mention in my text along with the pictures free of charge. This book will be distributed throughout the United States and it will be quite an advertisement in an effective way to the Hawaiian people.

"If this meets with the approval of the committee, please procure as sug-
gested, and send to me, and I will do my part."

Girls from Arizona.

The business manager of the Arizona Gazette writes that he is still working on the "Trip to Honolulu Contest," and fully expects to send from five to ten young ladies to Hawaii the coming winter.

A prominent hotel man now doing business in Chicago writes that he is considering Hawaii as a field for future effort and that he will spend the winter here. In his letter he says:

"My brother, who is connected with the passenger department of the Canadian Pacific, in Canada, informed me three months ago, that with a little push from a direct source of advertising, he could guarantee 200 people on a trip to the Hawaiian Islands in the winter and he already has given me the names of eight families, who are coming this year, while they are only farmers in western Canada, they are pretty well fixed."

By the next steamer we will send out special letters and supplies of folders to every tourist agency, (large and small), throughout the United States and Canada.

Our "Winter Sports in Hawaii" mailing card will soon be ready for distribution.

FEW SURVIVORS OF THE LIGHT BRIGADE

There are believed to be only thirty-two survivors of the rank-and-file who took part in the historic charge of the Light Brigade at Balaklava, and of these twenty-two are in necessitous cir-
cumstances. The oldest is 86 years of age, says the London Daily Telegraph, and but for philanthropic effort he and his companions would have had their last days overshadowed by want. At a moment when the thoughts of the nation have been fixed once more upon the Crimean campaign by the death of Miss Florence Nightingale, the need for money to aid these old heroes will assuredly not be allowed to exist for a single day. It is thirteen years since T. H. Roberts established the Balaklava Light Brigade Charge Survivors Relief Fund. At the banquet then held, seventy-four men attended, and it was discovered that several of them were spending their last days in workhouses—forgotten and neglected.

In the intervening years more than half these heroes have gone to their rest, and it is a duty which the nation owes to itself that none of the survivors shall be again permitted to need any of the simple comforts which can add a solace to their last days. The work of aiding these veterans, it need hardly be added, has lost a sympathizer and supporter in Miss Nightingale.

The money which goes to these neglected heroes is well spent. They are sent weekly pensions by post, and when at length the "last post" sounds each of the old men receives a decent funeral.
